Dora Somosi, *Toni Morrison, Red Maple*, Nyack, NY, 2022-2024 © Dora Somosi, Courtesy of Gilman Contemporary

The Photography Show presented by AIPAD will take place April 22-26, 2026 at the Park Avenue Armory. Featuring exhibitors from around the world bringing historically significant and formally innovative work, the fair will continue The Photography Show's longstanding commitment to deepening the collective understanding of photography's history while spotlighting some of the most dynamic examples of contemporary experimentation.

The Photography Show showcases exceptional presentations by members of the Association of International Photography Art Dealers (AIPAD), along with guest exhibitors and galleries new to the fair. The 2026 iteration of the fair marks the solidification of AIPAD's status as the market leader in photography and the crystallization of The Photography Show as a benchmark event for the exhibition of photography. After several years of refinement, The Photography Show has now reached its optimal size, one that allows it to most effectively shape, support, and advocate for the field of photography in all of its historical and contemporary permutations.

AIPAD is excited to welcome new exhibitors, such as **Galerie Sophie Scheidecker**, Paris, France; **Ruiz-Healy Art**, New York, NY and San Antonio, TX and **Leica Gallery New York**, alongside those returning to the fair, such as **Augusta Edwards Fine Art**, London, United Kingdom; **IBASHO**, Antwerp, Belgium and **Rolf Art**, Buenos Aires, Argentina. A defining feature of this year's fair is the increasing gender parity among new and established galleries alike, with over a third of all exhibitors being women-led, founded or both. Regularly overlapping with this growth and diversification in exhibitors is the prominence of Latin American photography in the programs of member galleries, something that will be reflected in the programming of the fair.

AIPAD is proud to welcome back Lead Cultural Partner **MUUS**, whose partnership will allow The Photography Show to feature an eclectic mix of illuminating and celebratory events. Four days of **AIPAD Talks**, hosted by thought leaders in the arts and culture space, will be accompanied by insightful walkthroughs and educational events. The celebration of the prestigious **AIPAD Award**, presented annually to a pioneer in the community, recognizing them for changing the ways we perceive photography, as well as the **AIPAD Lifetime Achievement Award**, honoring the legacies of photographic icons, will take place during the new Opening Night Party on Wednesday, April 22. For the first time, the **Aperture Portfolio Prize** will be awarded at the fair, with all five finalists participating in a group exhibition organized by Aperture at AIPAD as well as an AIPAD Talks program featuring the finalists.

FOCAL POINT SECTOR

AIPAD is excited to introduce **Focal Point**, a new solo presentation sector for The Photography Show 2026. Focal Point will highlight galleries and artists focused on lens-based photography and is designed to showcase how artists have historically expanded our collective understanding of what photography is and how contemporary artists continue to show us what it can become. Designed in a dynamic layout to create fresh sightlines and conversations by [Oficina.la](#), the renowned woman-led Mexico City and Los Angeles based architecture firm, Focal Point is a revelatory way to exhibit powerful ideas and artistic practices in the iconic Park Avenue Armory. By promoting singular and vital voices in an inventive way, AIPAD affirms its commitment to supporting the next generation of galleries and photographers, while offering collectors, curators and the public the opportunity to discover the individuals who are shaping both the past, present and the future of the medium.

About AIPAD

Organized in 1979, AIPAD, with its global membership across six continents, is the collective expert voice for fine art photography dealers. Through its acclaimed education initiative, AIPAD Talks, and its flagship event, The Photography Show, the organization enhances the confidence of the public, museums, institutions and others in responsible fine art photography collecting. Presented by AIPAD, The Photography Show is the longest-running exhibition dedicated to the photographic medium in the world.
